

ACR 2 Solutions and MedAZ Press Release

July 28th, 2010 Lilburn, GA

ACR 2 Solutions, Inc., a leader in near real time risk assessment and compliance reporting, today announced that it has signed an agreement with Princeton Junction, NJ based Electronic Health Record (EHR) systems manufacturer MedAZ to sell ACR 2 Solutions risk assessment and HIPAA compliance products, including the *HIPAA Security Rule Compliance Reporter™* family of products, to their healthcare customers and related business associates.

These products are deployed as state of the art software as a service and always available, updated with the latest regulatory requirements and guidance. The *HIPAA Security Rule Compliance Reporter™* is specifically designed to allow physicians and small clinics to meet this stage 1 requirement, while allowing for additional upgrades to meet full HIPAA and other compliance. The partnership allows MEDAZ to offer a requirement necessary to qualify for HITECH stimulus funds. This requirement, to perform a security risk analysis in accordance with 45 CFR 164.308(a)(1) (HIPAA Security Rule) is one of the objectives that must be met when an eligible professional or clinic is applying for stimulus funds.

Jack Kolk, President of ACR 2 Solutions stated, “We are pleased to partner with MEDAZ as their security product and the opportunity created for us both by the stimulus funding requirement for a 45 CFR 164.308 risk assessment, as well as ongoing HIPAA and other information security and compliance mandates. Together we can deliver the compliance solutions many in the healthcare industry have been struggling to find. These products will greatly simplify the process of meeting their compliance requirements at a fraction of previous costs.”

About MEDAZ - MedAZ.net is a wholly owned subsidiary of KATSI, a global IT company delivering services, solutions and products to enterprises worldwide with state-of-the-art development centers in the U.S., Canada, Europe and India. MedAZ helps physicians to increase their office efficiency and reduce risk with free, fully integrated EHR and Practice Management Software when they sign up for MedAZ Billing PLUS.
